# 5 Minute Guide to HDX 8000 Series

1. HD (High Definition) gives video resolution of 720p (1280 X 720 pixels) but up to 1080p on the HDX 8006.
2. On HDX 8006 Only
3. 4Mbps Line Rate Optional.
4. People + Content is Polycom's Trademark proprietary data showing format. The option also supports standards based H.239. This feature enables a user to send their PC/Mac Desktop to the remote conference participants.
5. People on Content allows for camera video to be chroma-keyed on top of content video.
